Bio

G-Syndicate is Barbados' premiere a capella group and only vocal band. They are inspired by leading vocal groups such as Take 6, Naturally 7 and Boyz II Men. They frequently delve into the genres of calypso, soca, dancehall, reggae and Barbadian spouge. Combining these different styles of the Caribbean with jazz harmony allows them to give not only their original music, but traditional funk, old school, 90's R&B and Top 40 songs a simultaneously unique, contemporary and Caribbean feel.

G-Syndicate has impressed audiences across their native island Barbados at numerous festivals, community and corporate events. Their awe-inspiring live show always leaves audiences enthralled and asking for more. G-Syndicate's goal is to be a pioneer in vocal music and one of the most dynamic bands of this generation. From live performances to studio recordings, G-Syndicate has developed a signature sound and style that cannot be duplicated and they intend to take their distinctive sound to the international stage.
